## Weekend Immersion in Nursing Informatics (WINI)

**Feb. 6-8, 2009**

**The Hampton Inn & Suites  
Largo, Florida**

Advanced Navigation. *Superior Patient Care.*

## Conference Description

This conference will focus on practice trends and issues that nursing professionals are facing, as well as providing a comprehensive examination of nursing informatics theories, human impact factors, systems analysis and design approaches. This conference also includes methods for managing information databases and systems, as well as the evaluation of computer technology systems. The content provides an opportunity to prepare for the ANCC Nursing Informatics Certification Exam and is conducted by certified informatics nurses.

## Conference Objectives

At the completion of the conference, participants will be able to:

- State a personal goal to attain by attending this conference
- Examine theories, models and frameworks that can be used in health care and nursing informatics practice, education, administration, and research domains
- Discuss local informatics issues through professional networking and personal problem solving
- Discuss human factors that affect nursing informatics
- Create and present a brief summary of the workgroup findings and recommendations associated with the assigned case study
- Distinguish standards and terminologies that affect the life cycle of the information system
- Identify two strategies used in the assessment phase to identify and collect data and information

- Describe available hardware, software and communications components for a health care information management solution
- Discuss the role of project management, systems analysis and design in planning a successful system implementation
- Develop a test plan, education plan and project management plan to implement an information system
- Evaluate the implementation of a health care IS solution and the methods to communicate the results
- Describe the professional performance activities of an informatics nurse in the lifelong learning cycle
- Assess readiness to complete the ANCC and describe the initial application and follow-up recertification process
- Evaluate WINI and discuss content for future nursing informatics workshops

## Continuing Education Credit

This continuing nursing education activity was approved by Maryland Nurses Association, an accredited approver for the American Nurses Credentialing Center's Commission on Accreditation. There will be 16.3 contact hours awarded to attendees.
