ProMedica Center of Nursing Excellence presents:  
Weekend Immersion in Nursing Informatics (WINI)  
Friday – Sunday,  
February 3 – 5, 2012

**ProMedica Toledo Hospital**  
**Croxton Auditorium**  
**2142 N. Cove Blvd.**  
**Toledo, OH 43606**

## **Information:**

For information related to this program (not registration), contact Barb Tassell at [barb.tassell@promedica.org](mailto:barb.tassell@promedica.org).

## **Continuing Education Credit:**

This continuing nursing education activity is approved by the Maryland Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. 16.5 contact hours will be awarded for this conference.

## **Conference Description:**

The WINI conference focuses on trends and issues in practice that nursing professionals face. It provides a comprehensive examination of nursing informatics theories, impact of human factors, systems analysis, and design approaches. Methods for managing information databases and systems as well as the evaluation of computer technology systems are included. The content provides an opportunity to prepare for the American Nursing Credentialing Center's (ANCC) Nursing Informatics Certification Exam and is conducted by certified informatics nurses.

## **Conference Objectives:**

At the completion of the conference, participants will be able to:

- Examine theories, models and frameworks that could be used in healthcare and nursing informatics practice, education, administration, and research domains.
- Discuss local informatics issues through professional networking and personal problem solving.
- Discuss the Human Factors that affect Nursing Informatics.
- Create and present a brief summary of the workgroup findings and recommendations associated with the assigned case study.
- Distinguish standards and terminologies that affect the information system life cycle.
- Identify two strategies used in the assessment phase to identify and collect pertinent data and information.
- Describe available hardware, software and communications components for a healthcare information management solution.
- Discuss the role of project management, systems analysis and design in planning a successful system implementation.
- Develop test, education and project management plans to implement an information system.
- Evaluate the implementation of a healthcare IS solution and methods to communicate the results of the evaluation activities.
- Describe the professional performance activities of an informatics nurse in the lifelong learning cycle.
- Assess readiness to complete the ANCC certification for nursing informatics, describe the initial application and follow-up recertification processes.
